

HOAR CROSS HALL

Hoar Cross Hotel and Spa is a very prestigious Hotel and Spa complex in 50 acres of rolling Derbyshire countryside and a long standing customer to Bryland Fire. When a recent Fire Risk Assessment identified the need to consider Automatic Kitchen Fire Suppression, it was left to Bryland to identify the risk associated and fit equipment that would negate that risk.

The Hotel and Spa complex has five kitchens on site, and so all were fitted with their own ANSUL R102 Kitchen Fire Suppression system. The system has both LPS 1223 and UL300 certification.

Whilst four of the kitchens were relatively easy to install during daytime hours, the main kitchen works 18 hours, 7 days and so it was up to Bryland's Project Manager to liaise with the kitchen management, as to when would be the best time to install the system. It was done during the night time, and all was ready to cook again when the kitchen opened at 6am.

The project was managed for Bryland by Howard Batty, he commented; *"The customer was a pleasure to work with, and the systems were fitted with the very minimum of fuss. A very smoothly executed project with some very good looking installs"*

With nearly 50 years' experience, Bryland Fire Protection are based in Dudley in the West Midlands and are specialists in all things Fire related from Alarms and Extinguishers through to Fire Suppression, Servicing and Training.

They can be reached on **01384 573350** or at **sales@brylandfire.co.uk**.
